#startupindia

Overview of the Startup India portal

The Startup India portal is a one-of-its-kind online platform for stakeholders of the entrepreneurial ecosystem in India to discover, connect and engage with each other. The portal will host startups, investors, funds, mentors, incubators, accelerators, government bodies, academia, and general users. The development of the portal was formally announced during the first anniversary event of the 'Startup India' campaign by the Hon'ble Commerce & Industry Minister Smt. Nirmala Sitharaman on 16th Jan, 2017.

[1] Eligibility Criteria:
An entity shall be considered a "Startup" -

- If incorporated as either Private Limited Company or Registered Partnership Firm or Limited Liability Partnership
- If incorporated or registered in India not prior to 10 years
- If turnover for any of the financial years has not exceeded INR 100 Crore

Built on a gamification based model, Startup India portal is a dynamic and interactive platform to facilitate information discovery, entrepreneurial learning & development, networking, mentorship, funding and lots more for Startups and other stakeholders. The objective is to reduce the knowledge asymmetry and create a conducive environment for startups to flourish in an engaging ecosystem. It also serves as the dedicated technological infrastructure for all (government & private) entities to engage with the booming Indian startup ecosystem.

SALIENT FEATURES OF THE STARTUP INDIA INITIATIVE

PROGRAMS

Participate in competitions, workshops, hackathons and other events run by government organizations and corporates on the hub to access funding, mentorship and deals.

KNOWLEDGE BANK

Increase your knowledge about the important aspects of entrepreneurship through impactful reading materials and specially curated videos on topics like company registration, investor engagement, innovation and business and much more.
